## ELECTRICAL AND DATA TELECOMMUNICATION SERVICES

Aiken Group's Electrical and Data Telecommunication Services provide integrated solutions onshore and offshore for:

- **Electrical contracting** - full range of electrical design engineering and installation services
- **Data telecommunications** - IT networking services including design, supply, implementation and ongoing support
- **Maintenance breakdown** - 24 hour call out, planned preventative maintenance (PPM)
- **Petrochemical** - electrical, instrumentation and telecommunications in onshore locations and other hazardous areas
- **Procurement** - inclusive specialised equipment
- **Manpower** - provision of single or teams of highly qualified local or ex-pat staff to assist customers with their projects

Aiken Group operate within the specific requirements of the electrical industries standards and regulations.
