MAINTENANCE SERVICES

Aiken Group's Maintenance Services offer total solutions to optimise your facility's reliability, efficiency and lifecycle costs and include:

- **Door maintenance programmes**, operating on over 22 offshore installations in the UK Continental Shelf
- **Survey, manpower and materials for repair and service**
- **Ad-hoc maintenance support**
- **Development of planned maintenance routines (PMR's)**
- **Door seal integrity**
- **Temporary refuge integrity**
- **Spare parts**
- **Maintenance labour**
- **Heating, ventilation and air conditioning**
- **Integrated maintenance execution**
- **Maintenance strategy and engineering**
- **Maintenance planning and management**

Services include our specialist support to modification and construction projects involving category 1 and 2 type hotwork during platform normal operations by means of pressurised habitats, commonly known as Welhab - conceived, developed and manufactured by Aiken Group since 1985.
