# PROJECT MANAGEMENT

---

[www.aikengroup.com](http://www.aikengroup.com)

Aiken Group's management teams are highly skilled and experienced in organising, scheduling and integrating all individual elements of projects to meet customers' requirements, including budget and schedule.

A flexible approach combines innovative solutions and tried and tested methodologies and an in-depth working knowledge of legislative and industry standards, design codes and safe practices.

The approach also enables Aiken Group to respond quickly and effectively to customers' requirements, often at short notice.

**Project management services include:**

- **Planning and control**
- **Estimating**
- **Purchasing**
- **Integrated work management**
- **Construction management and supervision**
- **Project administration**
- **Quality management**
- **HS&E**
